- ✓ with charge level control
- ✓ electronic shut-down
- ✓ with traction batteries and light batteries

Image: CM 2 ELECTRIC with snow plough

Advantages and special features

The innovative battery driven ride-on machine „CM2 Electric“ is characterised by its maneuverability, robustness and flexibility. In a very short time the carrier vehicle becomes a sweeper, a snow or dirt pusher or a mobile scraper.

This machine is driven by 4 traction batteries and light batteries, which can be charged by the supplied charger. The driving speed and driving direction can be chosen by using the foot pedal. This also brings the attaching kits in the working positions oder lifts them up. The attaching kits can be changed in seconds and without any tools only by using a locking bracket.

You will find the video of Cleanmeleon 2 right here!

Technische Daten

Type of machine	Cleanmeleon 2 ELECTRIC
Steer	steering chain
Drive	battery driven, traction batteries and light batteries 4 x 12V, 80 Ah
Charger	electronic charger 48V, electronic shut-down for battery conservation)
Power (in Watt)	1100 Watt (1,1 KW)
Duration of use	120 Min.
Speed	8 km/h forward, 5 km/h backward
Weight	220 kg (high traction force), additional gewichte je nach Bedarf möglich
Size	L: 1800 mm, W: 770 mm, H: 1070 mm
Chassis	5 mm galvanized
Tyres	AS tyres 16 x 6.50-8
Lifting up of attaching machines	by foot pedal
Mounting options	R 900-E, ASS 800 / ASS 900, pushing shield, snow plough

(Technische Daten sind annähernd und unverbindlich.)

CM2 ELECTRIC with snow plough.

CM2 ELECTRIC with pushing shield 80-160.

CM2 ELECTRIC with radial brush R 900-E.

Difference to CM2 - a clear armature.

CM2 ELECTRIC with scraper ASS 900.

A Westermann that can clean!
