## Advantages and special features

Enormous power, high performance, thus ensures a flexible use of the motorised radial brush MBR 800 Honda and WR 900 Honda.

The high quality Honda motor, this radial brush is equipped with, generates a constant power. The 800er and 900er series don't differ in their working width but only in the height of their brush container.

The higher the brush container the larger volumed dirt can be moved. Voluminous amounts of feed in agricultural businesses, high quantities of wet leaves or even snow in winter services can easily be moved with this power pack.

## Special equipment

- industrial engine Honda GXV 160 OHV
- double bristles for the tennis court and cleaning of sports arena
- narrow tyres 13 x 6,5-6 4PRTT for a broader ground pad of wheels
- broad roller feeler for a broader ground pad of guide wheel
- wire/PPN brush
- wire brush

You will find the video of MAR 800 charger + WR 900 charger right here!

## Technical data

Type of machine	MBR 800 Honda	WR 900 Honda
Brush drive	4-stroke benzine engine
